INACAP

2016 - 2019

### ● MERCHANT MARINER (Other studies)

Encicomp OTEG

2010

## P R O F E S S I O N A L   G O A L S

I am looking for an opportunity to enter the tech sector, ideally in web development. However, I am also motivated to start in any field related to IT (back-end, front-end, full-stack trainee, technical support, and/or similar roles).

I am fully available to gain experience in the area I have studied and in which I continue to train myself.

## E X P E R I E N C E

### ● FULL STACK ENGINEER

From 2023 to Present | Educacion IT | Web Developer

I completed several projects, starting with HTML, CSS, and JavaScript, and progressing to React for the frontend and Node.js with MongoDB and Express for the backend. My final project was a functional e-commerce platform with a shopping cart, built in 3 phases.

### ● Internship in Computer Engineering

From 2020 To 2020 | Web Developer and Technical support

I developed a web application for managing entry and exit equipment, starting with requirement gathering, database design, and project implementation. Additionally, I performed PC maintenance, including formatting and image backups. In the second phase of my internship, I completed the web application using real data. Technologies used: PHP, Bootstrap, and AdminLTE template.

### ● THESIS PROJECT | Pet Web Application

From 2016 to 2019 | INACAP UNIVERSITY

I developed a web application that allows users to leave condolences for various pets, using Vanilla JavaScript and PHP. I implemented the MVC pattern and utilized a MySQL database for data storage.
